Dallas Morning News: Injuries are a part of high school football. But to what extent can they be prevented?

Injuries can unfortunately be a part of high school football, but to what extent can they be prevented? *The Dallas Morning News* compiled a list of common football injuries, including information about how they occur and how they can be avoided. Orthopedic sports medicine physician **Shane M. Miller, M.D.** is an expert in caring for young athletes and was interviewed to discuss football safety and injury prevention.

Publication Spotlight

Clinical Outcomes of Single-Stage Revision Anterior Cruciate Ligament Reconstruction Using a Fast-Setting Bone Graft Substitute

PGY5 Resident, Philip A. Serbin, M.D., was one of the co-authors in a study published in **The Journal of Knee Surgery** last month. The study delves into the efficacy of single-stage revisions in ACLR, emphasizing the use of fast-setting bone graft substitutes (BGS). This innovative approach aims to address challenges posed by malpositioned or dilated bone tunnels, often encountered in revision surgeries.

UTSW Orthopaedic Surgery

Celebrating the Holidays

UT Southwestern Orthopaedic Surgery had fun filled celebrations last month to ring in the holiday season.

The Frisco Orthopaedic Surgery Clinic had an out of office get together at Puttery to celebrate the holidays. The main campus department staff had their annual lunch at Rodeo Goat with Department Chair, Dane Wukich, M.D.

The department staff also had a full holiday week with ugly sweater day, secret Santa, and enjoyed a hot chocolate bar with fried pies.

We enjoyed all of the holiday festivities and look forward to them each holiday season.

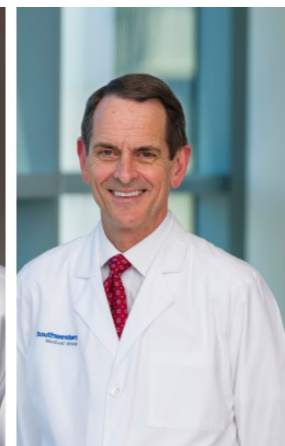

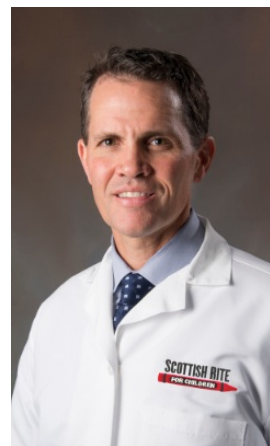

Work Anniversaries - January 2024

The Department of Orthopaedic Surgery would like to highlight the major work anniversaries for this month.

Philip Wilson, M.D. (Scottish Rite) is celebrating 24 years. Dr. Wilson is currently a Professor in our department, and the Assistant Chief of Staff for Scottish Rite for Children in Frisco at the Sports Medicine and Orthopedic Clinic. **Kevin Gill, M.D.** is celebrating 19 years with UT Southwestern. He has been a pillar in the Department of Orthopaedic Surgery and the spine section. Dr. Gill is currently a Professor and Vice Chairman for the department.

Faculty News

Dr. Grewal teaching in the JnJ Complex Hip & Knee Revision Symposium

On February 3rd, **Ishvinder Grewal, M.D.** will be teaching as a course faculty member for the **Complex Hip & Knee Revision Symposium** sponsored by **Johnson & Johnson Institute**.

This one-day course held in Phoenix, AZ will bring attendees into the lab and into the classroom to learn about DePuy Synthes solutions for revision arthroplasty and trauma surgery.

To learn more about the course, please check out our **Upcoming Events** section of the newsletter.

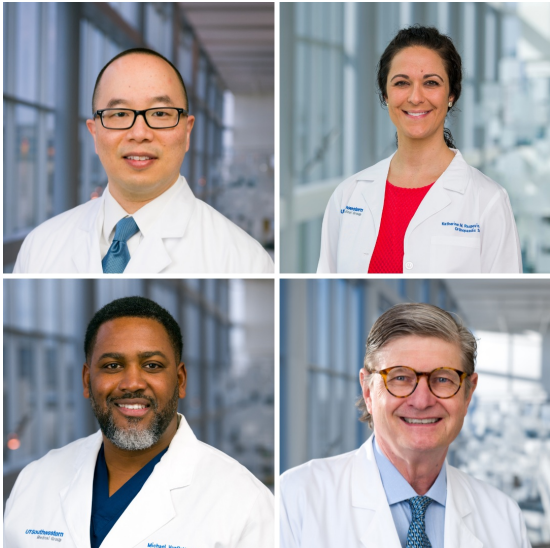

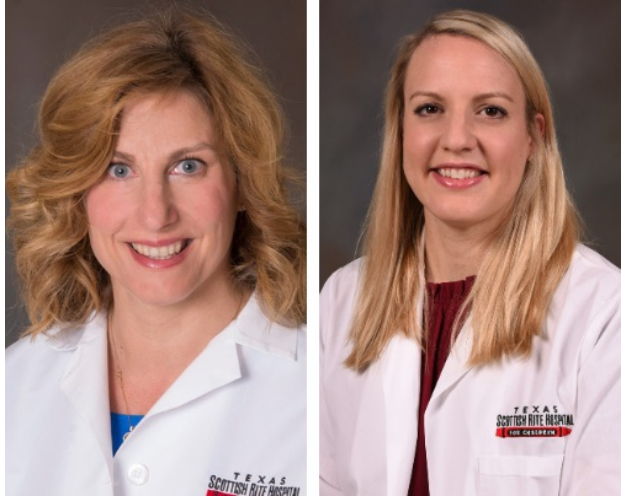

Dr. McIntosh and Dr. Johnson selected for inaugural group with the Scoliosis Research Society (SRS)

UTSW Orthopaedic Surgery Associate Professor and Scottish Rite Faculty Member, **Amy McIntosh, M.D.** and Assistant Professor and Scottish Rite Faculty Member

Megan Johnson, M.D. were selected to be among the inaugural group **LEAD** with the **Scoliosis Research Society**.

Drs. McIntosh and Johnson will be among the next-generation of leaders in comprehensive program for members focused on leadership, education and development with the organization.

Congratulations on this honor! We look forward to seeing the work you do in LEAD!

Upcoming: ACFAS 2024 Annual Scientific Conference this week

UT Southwestern Orthopaedic Surgery Faculty (George Liu, D.P.M., Katherine Raspovic, D.P.M., Michael VanPelt, D.P.M. and Dane Wukich, M.D.) will be attending and speaking at the upcoming **ACFAS (American College of Foot and Ankle Surgeons) Annual Scientific Conference on February 1-4, 2024** in Tampa, FL.

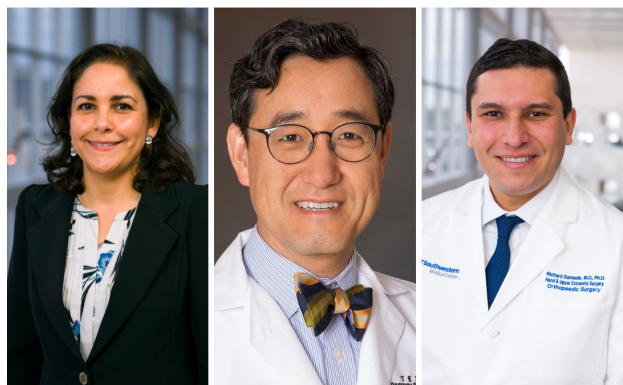

Dr. Raspovic is once again a part of the conference committee, the vital group that helps put on the event every year.

Comparison of Gait and Functional Outcomes Between Open and Arthroscopic Treatment of Adolescent and Young Adult Femoroacetabular Impingement

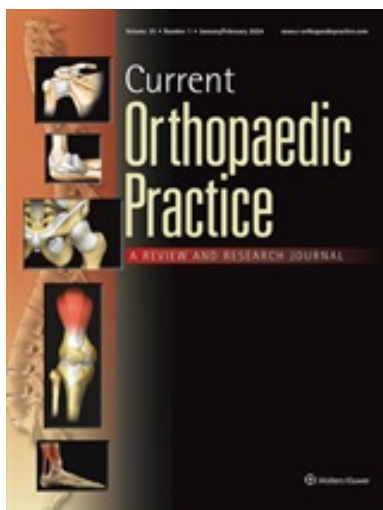

Management of femoroacetabular impingement (FAI) through an arthroscopic or surgical hip dislocation (SHD) approach has been shown to have similar clinical success and patient-reported outcomes. However, there are limited data comparing functional outcomes. The purpose of this study was to compare gait and functional outcomes of adolescent/young adult ...

A Retrospective Comparison of Orthotic Interventions on Charcot Feet

This retrospective chart review aims to find evidence supporting a difference in complications rates and progression of Charcot deformity between two orthotic interventions: the CROW and the custom calf lacer ankle foot orthosis. The existing evidence base to support the use of orthoses in the prevention and treatment of diabetic foot ulcers secondary to Charcot arthropathy is extremely limited ...

Surgical Implications of Soft Tissue Depth in Primary Total Hip Arthroplasty

Incidence and Clinical Risk Factors of Post-Operative Complications following Primary Total Hip Arthroplasty: A 10-Year Population-Based Cohort Study

Morbid obesity has been identified as a risk factor for complications in total hip arthroplasty (THA). However, the impact of the adipose tissue distribution near the surgical site has not been adequately studied. We aimed to characterize the complication rates associated with varying soft tissue depth around the operative hip as measured on plain films ...

More

Total hip arthroplasty (THA) has become a growing treatment procedure for debilitating hip pathologies. Patients experienced post-operative complications and revision surgeries according to large THA registries. To fully understand the short-term and long-term post-operative outcomes following THA, the purpose of this study is to examine the incidence of post-operative complications ...
